Dear both

I've now got a new version back from [redacted] which is attached. If you are okay with this, I would like to send it out to the partners for their final approvals. Utrecht and Rotterdam need to check minor text changes but the rest should be okay.

I'm still waiting to hear from Misteli about the contact information for the back page, so I propose asking the partners to check this themselves.

Not sure what to do about the startups though?

Once I have everyone's green light, we will do a final proof read.

[redacted]
