Subject: Support for new traffic management measures in the Joordan
Categories: Gele categorie

Hi,

I received the flying for the local information evenings but was unfortunately unable to attend any of the sessions. That said, as a current resident of the neighborhood, at 5.1,2,e Marnixstraat. I'd like to express my full support of both measures to reduce thru traffic, in particular as a resident of Marnixstraat making it a 1 way street with less parking and more space for pedestrian traffic and cyclists.

One follow up question from me - what are the next steps for these measures and if they are approved roughly when might the work start & be completed?

Please let me know if there's anything else you need / any way I can be helpful in supporting these measures?

Thank you,

5.1,2,e
