Hi [redacted]
Together with [redacted] we have spoken with [redacted] from Thales. There are two projects, like [redacted] and [redacted] have created initially. See below some specs, which we would modify after we receive the email from [redacted] from Thales. Can you “unmerge” projects or create the second one?
Project #1:

- Relocation/expansion HQ Thales in Huizen. Specs: 2500 m2 production radio systems for army and 500 m2 office, plus 150 parking lots. JLL is busy to look for the options: they looked in Amersfoort, Hilversum and now they are very seriously negotiating a property in Amsterdam Zuid Oost. They were able to get 150 parking lots there as well. This week they will present this option to their HQ in France. Three outcomes are possible: 1) HQ will accept the option in Amsterdam 2) HQ will not accept and they stay in Huizen 3) HQ will not accept and they will look for other options. [redacted] will let us know the outcome and then depending on it, we will act/not act accordingly.

Project # 2:

- Industry Hub Thales: 6000 m2 warehouse, 3500 m2 production, 500-1000 m2 office, so around 6-10000 m2 alltogether. [redacted] will share the specs with us and will specify the cities they have selected. This is a new project, but they want to move fast. As soon as we receive their wishes list from [redacted] we can check locally but without mentioning Thales, so anonymously.

[redacted] CEO van Thales Nederland is a board member of Oost, so if you do not have yet a warm contact with CEO of Thales in France and would like to have a warm introduction, then feel free to let [redacted] know, he can facilitate.

@[redacted] feel free to add to my email if I missed anything…

Best wishes
[redacted]

Onderwerp: #39525 Thales projects merged

Dear all,
Following my last week's email, please be informed that the two Thales projects on expansion services/service center (the one from OostNL and the one created by AiB) have been merged. The project can be found under [redacted]
Please make sure to update Achilles after each visit (link related visits), e-mail or conversation and include me in your communications with the company. Thales is a very important national strategic account and there are other projects going on.
Please do not hesitate to contact me if you have any questions.
Best regards,

[redacted]
