MAYOR OF KYIV

001-01-138
03.02.2026

Mayor of Amsterdam
Ms. Femke Halsema

Dear Colleague,

On behalf of the territorial community of the city of Kyiv and on my own behalf, please accept our sincere greetings and words of respect.

Amid the ongoing armed aggression of the Russian Federation against Ukraine, the city of Kyiv continues to face severe and systematic missile and drone attacks targeting, in particular, the energy infrastructure of the capital. As a result, the city remains under constant risk of disruptions to electricity and heat supply, which poses serious challenges to the stable operation of critical infrastructure facilities, healthcare institutions, educational and social services, as well as residential buildings.

In this context, I kindly request that you consider the possibility of supporting the city of Kyiv by providing or facilitating the procurement of autonomous power supply sources (electric generators) of various capacities to ensure the uninterrupted functioning of vital municipal facilities.

Kyiv highly values the solidarity demonstrated by European municipalities and are fully aware of the challenges faced by local governments across Europe. Nevertheless, I sincerely hope for your understanding and support within the framework of municipal cooperation. For its part, Kyiv remains open to all possible formats of cooperation.

A list of the city of Kyiv's general and current priority needs is provided in the annex to this letter and may serve as a basis for further discussion of potential support mechanisms.

I am firmly convinced that solidarity among European cities today is a cornerstone of resilience, security, and a shared European future based on democratic values and mutual support.

Sincerely,

Vitaliy Klitschko
