Onderwerp: Innovative concession project (energietender Centrumeiland) in Amsterdam - contact person
Dear [redacted] and [redacted]
It has been a while since I have spoken to you, so I hope you receive this message in good health. As you may notice I am now working for the European Commission, DG GROW C2 (public procurement). My colleague [redacted] who works in C3 (Concessions) is specialised in the tendering of concessions is currently preparing a conference on the topic. She is looking for interesting cases to present.
I told [redacted] about the challenges Amsterdam is facing in energy-transition. I told [redacted] more specific how the tendering out of concessions for Ground-coupled heat exchange systems for large urban development projects plays a role in this energy transition. So she would like to

come in contact with the teams that are handling these concessions to explore the opportunity of showcasing this example of a concession.
This is the reason I am contacting you. [redacted] I know you have been involved in the project management of the specific case of the project Centrumeiland. [redacted] I know your department is handling the procurement side of these energy concessions.
Would it be fine if [redacted] contacts you to explore a possible participation in the congress?
Unfortunately I do not have the practical details, but [redacted] will explain this to you.
Kind Regards,

[redacted]
