Projectplan MOOI-SIGOHE_STOReHUB_v8.docx

---

Dear all,

Thanks for joining this morning.
As agreed during the meeting, we are going for a submission of the proposal and you are committed to aid in the writing process.
Let's make it a success!

On the MS Teams [redacted] and I uploaded a new projectplan: version 8.
In it you find specific comments and instructions on where your input is needed.
When input is required from 'all'; please put input and don't skip it.

Apart from the specific instructions, we ask you to provide input in general where you see fit.

**Provide your input before tomorrow 17:00 in the document on MS Teams.**
If you have technical issues with Teams. Provide your input by attaching your version on the e-mail to [redacted] and me (emails in cc). We will integrate it.

Best regards,
[redacted]

**Onderwerp:** STOReHUB input session
Hi Everyone,
After kicking off with 5 individual meetings for each workpackage we've been working on the draft projectplan. During this session we want to show you the outlines of each WP and have a more in depth discussion about the content and the coherence of the WP's.
Due to the tight deadline we felt we should plan the meeting without consulting availabilities first. We hope for you understanding.
We hope to see you there.
Team STOReHUB
