Onderwerp: Follow up rvt and board
Urgentie: Hoog

To the supervisory board, [redacted] and the stakeholders of MRL,

At the end of last week, we got a whatsapp from the office saying that two renters can join an interview with two possible board members so we can have 'a say' in this matter. I applied for this because I believe it is important the sexworkers are involved in this.

This weekend I got a call from [redacted] she wanted to form a commission and she wanted to discuss everything with me and [redacted] I was surprised and told her I have to think about this and I have to talk to the other girls how they think about this. The last few days I talked to the other renters and we do want to have a say in who becomes the new board. But we were shocked it is not to replace the supervisory board, but just to install two new people in the board. A while ago we made clear we don't trust [redacted] and the supervisory board and we don't feel safe with them after all their lies and deceptions and because they never listen to us or care about us.

September 21 we shared our concerns about [redacted] and the supervisory board with [redacted] and she told us there will be a final decision about them within three weeks. We have the strong feeling [redacted] and the supervisory board are using us, so they can tell the stakeholders they cooperate with us and they are in good contact with us, but this is not true. Most of us cancelled their rooms and are working somewhere else in the red light, not because of corona, but because [redacted] and the supervisory board are still in place. There are

only 3 or 4 renters left during the nights at the office. [redacted] and the supervisory board never gave us a concrete answer on our damand to step down because we don't feel safe with them and we don't trust them. The only thing they said is they are 'investigating'. They didn't communicate to us ever since and now, out of the sudden, when their position is at stake, this message about two possible new board members. More than half of the sexworkers already left their rooms and a lot of us are now renting at other offices as long as the supervisory board and [redacted] are still connected to My Red Light.

Taking all this in consideration we have a strong feeling we are being used again by the supervisory board and they still don't care about us. We are absolutely willing to cooperate and have our say about the new board, but not as long as [redacted] and the supervisory board are in place. We truly do not understand why they don't step down so we can continue MRL all together with renewed energy: nobody wants them, nobody trusts them and they are ruining My Red Light.

On behalf of the renters of My Red Light,

One of the renters (the beheerders know my name)
