Amvest

Giving people a good home: that has been our mission for over 20 years. As an investment manager *and* a developer of homes and residential areas in the Netherlands, Amvest aims to contribute to well-functioning neighbourhoods in which people are happy to live for a long time. How do we do that? By understanding that development and investment go hand in hand. By consciously investing in these areas, and in quality. And by bringing different parties together, uniting their interests and collaborating closely. That is how we create a home for people.

ABN Amro Bank

Our integrated approach enables us to offer you comprehensive advice. By working closely with finance and capital structuring specialists, our services include real estate finance, cash & liquidity management, treasury, debt solutions and real estate advisory. City of Amsterdam

Amsterdam is the cosmopolitan, cultural capital of the Netherlands and its unique, entrepreneurial and creative spirit continues to draw young professionals from all over the world. Plans are underway to develop 250,000 new homes throughout the greater Metropolitan region of Amsterdam by 2040.

City of Eindhoven

Brainport Eindhoven: Europe's leading innovative top technology region and second economy in the Netherlands. With a GDP +2.0% in the first quarter of 2021 Eindhoven was the only Dutch region with economic growth despite the pandemic. With the top in high-tech and innovation by Philips, ASML, NXP, DAF and VDL.

City of Lelystad

Lelystad is connected by road, water and rail to the heart of Amsterdam. Entrepeneurs feel at home with the 'pioneering' business-spirit here. Situated centrally in The Netherlands, Lelystad offers a brand new international airport, state of the art and innovative business parks and airport, state of the art and innovative business parks and attractive and affordable homes. All in a green and blue environment.

EarthY

We are EarthY, community creators. We invest in and co-create real estate and communities designed specifically for positive long-term impact. As collaborators and initiators of exceptional projects, we share in the risk of pioneering developments while working with our private and public partners. By putting people first, we find the best possible value for every project, for everyone.

Fakton

Fakton. Real people. Financial strategies. Resilient places. Fakton consists of a team of driven and opinionated professionals who dare to make a difference to the world around us. In cooperation with our partners we make a decisive contribution to resilient living environments and vital real estate organisations. Fakton creates meaning for people and society from the potential of each spatial value chain.

City of Utrecht

roads and railways. Utrecht has been a hub for new developments and learning since Roman times. Utrecht provides a vibrant, creative, inspirational environment for leading innovations making it not only the fastest-growing city, but also the healthiest city of the Netherlands. A thriving city in which citizens, companies, knowledge institutes and the local government combine their strengths to foster a healthy, inclusive society. In the coming years Utrecht will accommodate its growth in the existing urban area, saving the green landscape surrounding the city. Utrecht facilitates developers and investors that are willing to invest in an attractive and healthy city.

City of Rotterdam

Rotterdam is a young, dynamic and international city with a beating heart. The city on the Maas, is considered atypical in its own country and internationally renowned for its smart port, innovative manufacturing and its unpolished charms.

City of Haarlemmermeer

We strengthening the (international) business eco-system by helping investors and companies to establish and expand their businesses in Haarlemmermeer (Amsterdam Airport City). This is accomplished via close collaboration with public- and private stakeholders.

KCAP

KCAP is a leading international design firm for architecture, urbanism and landscape design with 100+ employees and offices in Rotterdam, Zurich and Shanghai. KCAP is reputed for the development of sustainable urban environments with buildings and public spaces that enliven and renew the city.

MVSA Architects

MVSA Architects is a renowned full service international architecture and design firm. Our mission is to create value for now and the future. We plan, build and design environments that are pragmatic as well as resilient. Our solutions are the result of a collaborative, integrated design approach that embraces the entire architectural process. Our aim is to improve the quality of life of the built environment.

Syntrus Achmea Real Estate & Finance

Syntrus Achmea Real Estate & Finance manages over 37 billion euros in real estate and mortgages for seventy institutional investors. We opt for sustainable investments which yield both a financial and

socially-responsible return. In doing so, we contribute to realising a healthy financial foundation and an attractive living environment for our clients (and their customers).

SADC

SADC (Schiphol Area Development Company N.V.) develops high quality, accessible, competitive business locations in the Amsterdam Airport Region: Schiphol Trade Park, Business Park Amsterdam Osdorp, PolanenPark, De President, Green Park Aalsmeer and Schiphol Logistics Park. We offer location advice and help companies to realise their new businesses. We don't just supply 'mortars and metres'. Before developing locations, we survey the requirements of businesses, investors and municipal authorities. What is needed, both now and in the future? What does a business really need to operate successfully? For us, the transition to a circular economy is a main theme. Schiphol Trade Park i.e. has to become the most sustainable and innovative business park of Europe.

City of The Hague

The Hague is a growing city. The steady stream of new residents is spurred by the presence of numerous international organisations. The Hague is the seat of government of The Netherlands and also one of the most important UN cities in the world. Easily accessible, close to the historic city centre and just a stone's throw away from the 11 km of sandy beach.

UNStudio

A full-service architecture design network in six locations. UNStudio, founded in 1988 by Ben van Berkel and Caroline Bos, is an international network specialising in architecture, interior architecture, product design, urban development and infrastructural projects. UNStudio's mission is to design for lasting impact and contribute to the societal challenges of urbanisation, climate change, ageing populations and socioeconomic inequality. Driven by purpose and focused on solutions, we create value by designing for the implications of these megatrends on our built environment. Designs that make our lives healthier, have little impact on the planet, but a lasting impact on our cities - and people.

Van Wijnen

We develop, build, maintain and manage real estate. Our goal is to help people and communities by constructing buildings that enhance the quality of life, work, care, learning and recreation.

In every assignment, we seek to connect with the residents, clients, colleagues and the immediate surroundings. Because you can only build something that really fits in with the environment by being sympathetic to the needs and demands of those who use it. And these demands are becoming increasingly complex in a rapidly changing market with developing opportunities. So we always start by listening. We also believe that collaborating, being pro-active and sharing knowledge are vital and form the key to success. We achieve all of this with 1,800 employees and well-motivated professionals from 24 independent locations in the Netherlands.

Vesteda

Vesteda invests the pension savings and life insurance premiums, entrusted to us by our participants, in sustainable Dutch residential real estate for middle-income tenants. As such we contribute to future income security for retirees, affordable and sustainable living for the Dutch middle-class and further improvement of the quality of urban communities.

VORM

Making an impression on the Dutch landscape. This is what VORM has been doing for over a century. It does so by creating environments where people feel comfortable living and working. An affordable unique home in a livable environment for everyone! Working alongside other adventurers, we give shape to ideas that the market demands.
