Hello.

I live on Berenstraat street, part of Centrum West. As I do not speak Dutch, I will not participate in the given time slot periods. My views on the proposed traffic measures are:

The Bollard Plan: I agree to close bridges for cars, as I believe to move forward we should strive to reduce the number of cars in cities, especially in city centers. I agree with closing all three bridges to car access.

For similar reasons, I agree to change Marnixstraat into a one-way traffic street.

With Regards
