	1820	again, same culprit from Getir with his scooter making a nuisance of himself, reving his engine unecessarily just trying to antagonise us and our neighbours.
	1829	the above employee joined by another "friend" on a scooter , neither in uniform so presumably off-duty but goingin and out of the store....
		They then drive off on one scooter together- 2nd scooter has no registration.
	1932	Both "boys" back again, scooter now parked outside "57"- one boy goes straight inside the store- other one randomly pulling out the boarder sticks the neighbours have spent

time surrounding the flower beds with to protect them.... Just being "dicks" to be frank. (removing sticks was also done last night after 1200 as we put them back this morning

when we went shopping. Both not in uniform so just playing as no management on duty of course.

2010 Scooter outside #57, guy gets on it , rides down the pavement to #51...two little boys playing on the pavement, they were scared and only by luck were not struck.

2020 went to put the trash in the bin, as walking past the shop spotted by employee who immediately shouted "buurman!!" too alert his colleagues... so "adult" ....

2025 now doing "wheelies" in the street....about six times whilst another "colleague" was outside the shop shouting "encouragement".....
