August 31, 2020

To the Supervisory Board and [redacted]

This letter is a reaction to your response to the letter we sent you after our meeting on August 16.

It is upsetting that you reply to us by saying that you "do not recognize" our frustrations and concerns and that you "take it very seriously." In your letter you said nothing about what actions you will take to show us that you are indeed taking this seriously and how you will try to make us renters feel safe in this office again. This is not only showing the great arrogance, it is also neglecting signals about safety when it is concerning you. This is very hypocritical, not in line with any reasonable policy, nor common sense. If there was any trust left among us towards you, it has been completely with your response. At least one of the renters has left the office specifically because of your callousness.

And talking about safety, we also want to add that during the night between 28 and 29 of August, [redacted] came last minute to replace an ill colleague for the night shift. We had to settle for this decision because there was no other choice. However she brought along [redacted] to the office. We were not informed nor asked to consent to this action. We felt extremely insecure and unsafe to know that a stranger was here. She also left him alone in the office with access to confidential information and documents. This has left us angry and scared for our privacy. Moreover, [redacted] was uncapable of helping one of us renters when she had an emergency situation.

We want to make it clear that we do not accept these delay tactics and attempts to distract us with phony investigations. We want to have real answers and we want to see real actions. Therefore, we demand, within 24 hours:

1. The confirmation that individual renters are allowed to temporarily cancel their permanent contract without any costs in case they feel unsafe.
2. The guarantee that the supervisory board and [redacted] do not enter the office anymore because we do not want to be confronted with people we do not trust and we don't feel safe with.

BEFORE Friday September 4

1. A concrete reaction on our unanimous demand for you all to step down.
2. A concrete plan, including explicit steps, as to how you are going to solve this situation.

Finally, we will remind you the renters are not just an "external party" or "clients" of My Red Light. We form the advisory board, which has a foundation in the statutes of MRL. Us sex workers are therefore a part of this organization and must be taken seriously.

In case you ignore us again or don't react properly to our demands, you give us no other choice than to seek external help.

Sincerely,

The renters of My Red Light:

The beheerders of My Red Light:

[redacted]

The following individuals have consented to signing on their behalf:

[redacted]
