Dear Mrs. [redacted]

This is [redacted] I am the tenant of Mrs. [redacted] I was living the apartment in [redacted] until 4th of August, that I also deregistered myself at Gemeenten on that day. Mrs. [redacted] has told me everything and she asks me to contact you to state what happened with the Airbnb.

I hosted 4 guests from Airbnb on the last day in the Netherlands, 4 of August and let them stay until 7th of August. I am supposed to rent the apartment until the end of August but I left earlier and I need to make some money for my trip back [redacted] because I ran out of all my saving during the pandemic and the air ticket back to [redacted] was 2000 euro, 8 times more expensive than normal. I really don't know what I've done is wrong until Mrs. [redacted] told me afterwards, I just hosted Airbnb guests couple of times after [redacted] left me and move to his friend because we were broken and I was in extremely difficult situation and have to leave the Netherlands and stop my study in UvA. You can imagine that even do Airbnb is extremely difficult at that period of time, I was trying my best to make some money to survive as a poor student. I don't want to hurt anyone and if I knew it was not proper, I would not host guests in Mrs. [redacted]'s Apartment.

Please forgive my ignorance and understand my situation during this extreme situation, I am just an international student and really don't know the complex and new regulation was released by Amsterdam gemeenten and please don't blame on Mrs [redacted] she knows nothing about this and it's all my fault.

If you have any documents or letters need to send to me further you can send me here or post to my address in [redacted], [redacted]. I don't know if I will still come back the Netherlands in the future because of my family situation is really bad now and I am not able to afford the living in NL again to finish the study, but I will do my best to compensate the fault I made this time, just please punish lightly on me for the sake of this terrible year.

kind regards
[redacted]
