Hi [redacted],

Great that [redacted] will present, we took a brief look at the slides yesterday. Looks good!

On the policy side, our Alderman on *Transportation and Mobility* -Mr. Egbert de Vries- has been formally informed as we send him an official briefing and request based upon our calls and info you shared with us. Per request where we basically advised him to sign the WEF charter on behalf of the City of Amsterdam and gave him an update on our current pilots and progress as a city.

We will have a formal response from the alderman as from next Monday/Tuesday but on a personal note it would require a strange turn of events if his response will be negative in stead of the calculated positive confirmation.

Keep you posted.

With kind regards and have a great weekend,

[redacted]

Hi [redacted]

This would be great! I will present our current position on UAM during the community session.

Looking forward.

Met vriendelijke groet,

We are looking forward to your colleagues presenting on the vision for AAM in Amsterdam. It would be great if the presentation could last from 15-20 minutes and we will leave 5 – 10 minutes for questions and discussion. Does that work for you? Thanks for your partnership, and have a great weekend.

> > > >
> > > > We expect about 40 people from both industry and government to show up for the August 18 meeting. The session will begin at 11:00 and last for an hour. We'd prefer that we have a public sector entity speak for about 20 minutes on their vision for AAM in their jurisdiction and their experiences so far either developing policy or a coalition to advance that vision. Then we have a private sector organization talk about what they are looking for from policy makers as they look to launch a service. For this meeting, we will have Airbus as the company presenting. Then we have an open discussion with community members for 20 minutes.

Please let us know any questions you have about it, and we look forward to hearing any feedback from you and your colleagues. It would be wonderful to have Amsterdam as part of the founding members of the community when we publicly launch in September.
