Dear licensing authority,

We live at 5.1, 2, e we have been living at this location 5.1, 2, e

To our surprise, I read about the consideration of expanding Hans Brinker's catering permit.

Hans Brinker has been a major source of nuisance to all local residents .Thanks to Hans Brinker, every evening and night there are groups of drunken and smoking tourists in the street and in our porches. There is odors and everything is full of butts and rubbish. And there is noise pollution until late at night. We can't leave windows open due to smoking under our windows and loud noises.

Hans Brinker has a doorman but does no more than send their guests further down the street. The highlight was a sign in front of the door where nuisance guests were sent 30 meters into the street to cause a nuisance.

What is incomprehensible is this sign

and leads to a lack of confidence among local residents. (We discussed this with each other in the neighborhood app).

Other than expanding the catering permit, I would maintain, evaluate and revoke the existing permit in the context of quality of the living environment.

Yours sincerely,

5.1, 2, e
