Subject: Photo from the Museum garden

Hi 5.1,2,e

You asked about how they can see into 5.1,2,e from the Museum garden, and I explained in words. I forgotten that I had saved this image, which had been up on the Museum website before the hearing, after which they took it down when we talked about the number of visitors.

5.1,2,e And, as you can see from their own photo, there are nine people (including the photographer) in the garden when the picture was taken. This is normal.

Best,

5.1,2,e
