Genodigden:	Nederlandse delegatie en Japanse bedrijven
U wordt verwelkomd door:	Consul Generaal: Gerard Michel
Woord aan aanwezigen	<p>Thank you very much for having us. The effort that has been put into making this mission possible in this short timephrame is very impressing, we feel very supported.</p> <p>It's so good to see that we are here with both Dutch en Japanese businesses. Because I cannot stress this enough: together we are working towards emission free mobility.</p> <p>Collaboration between all parties is of the utmost importance. This goes for dutch and japanese or other businesses, but also for businesses, public authorities and knowledge institutions. Development and innovations in the EV field are going fast and this brings us all sorts of challenges. Together we will be able to tackle those challenges.</p> <p>I hope you all had a successful visit in Kobe. From I have heard the Netherlands and Amsterdam are frontrunner in the field of EV because of two important qualities+ we embrace innovation en we have a commercial spirit.</p> <p>That is wonderful to experience and for me this mission has already been a success. I will go back to Amsterdam newly inspired. I wish you a very fruitful continuation of your visit here.</p> <p>Good luck.</p>
