

Pupil's school attendance in the educational institution abroad

In order to comply with the Dutch legislation of the education of minors it has to be proved that a pupil regularly attends the educational institution where he/she has been registered. To do so parents have to ask the head of the educational institution to fill out this form. The parents have to make sure that the truancy officer receives this form in June.

With this form the educational institution abroad declares that the pupil has or has not regularly attended the educational institution in schoolyear 20 24 / 20 25
