Hello,

My partner and I are residents of De Rijkgracht since 2020. We love the street and we do not want to see houseboats on the canal. We are boat owners and we do not want to have to move our boat. We also like to sit in the evenings beside the gracht and this will not be possible and the houseboats will stop this.

We wish to get involved with stopping the houseboats if we can. Let me know how we can help?

Many thanks
